

## Reading at whitgreave.

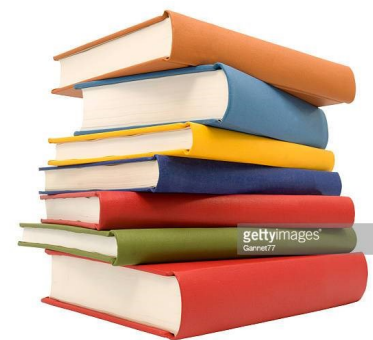

*At Whitgreave we all enjoy reading for pleasure. When you read, you also learn new words which you probably don't already know and these new words can help with your English work.*

*Your parents and teachers encourage you to read at home and learn how to spell different and interesting words from books.*

*Reading is good for your brain and for different occasions like when you are travelling on holiday, then it makes the time go quicker. At lunch times some children get to read with reading ambassador. This helps your fluency and expression. Teachers listen to children each day and ask questions about the books. .*

*These are our reading bands at Whitgreave, let's see what colour bands you know!*

*.Orange      .Gold      .Pearl  
.Emerald      .White      .Sapphire  
.Purple      .Lime      .Jopaz  
.Red      .Copper*

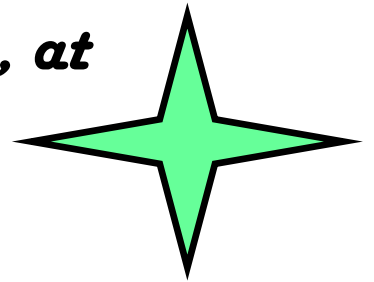

*Did you get it all of them right?*

*When you read, we all go through different stages. Some people are ready for using expression in their reading and some people still use phonics. Reading can help with lots of lessons like English, Topic, DT, Independent and Quality.*

*Always remember to enjoy reading, at home, at school with friends and family.*

*What book will you read next ??*
